

Aftercare Instructions: Mole and Skin Tag

Clean the wound once or twice daily with water.

After cleaning the wound, apply Bacitracin or Neosporin® for a 7-5 days, up to 2 times per day, after your treatment. After the 7-5 day period, you may apply a scar cream such as Kelo-Cote® .

Do not scratch, pick or rub the wound during recovery.

Avoid direct sun exposure.

Keeping the area moist may help relieve itching.

Showering is allowed.
